BRACELET & BANGLE MEASUREMENTS

BRACELETS: MEASURE YOUR WRIST

Wrap a soft tape or paper strip around your wrist, snug without pressing into the skin. Mark the overlap and measure it flat. Add around 1-1.5 cm as a starting point for comfortable movement, then compare with the product length. Try a paper loop to check fit.

SLIP-ON BANGLES: MEASURE YOUR HAND

Bring your fingers together and tuck your thumb towards your little finger. Measure around the widest part of your hand and knuckles in this position. Compare with the inside circumference below, allowing room to slide the bangle on comfortably. Alternatively, measure the inside diameter of a round bangle you own, excluding the metal thickness.

BRACELET SIZE CHART

Length (cm)	Inches
23	9.06
22	8.66
21	8.27
20	7.87
19	7.48
18	7.09
17	6.69
16	6.30
14.5	5.71

ROUND BANGLE SIZE CHART

Diameter (cm)	Inches	Circumference (cm)
6.7	2.64	21.0
6.5	2.56	20.4
6.3	2.48	19.8
6.2	2.44	19.5
6.1	2.40	19.2
6	2.36	18.8
5.7	2.24	17.9
4.5	1.77	14.1
4.1	1.61	12.9

Inches use 1 inch = 2.54 cm. Round circumferences are calculated from inside diameter.

Charts are measurement references. Choose from the sizes listed for your design.

Hinged bangles open around your wrist. For oval bangles, compare inside width and height.

Cuffs also depend on their opening and shape. Home measurements are an estimate.
